

Wastewater Plant Lead Operator.

The Coral Springs Improvement District is currently accepting applications for the position of lead wastewater treatment plant operators.

Applicants must have a valid Class A wastewater treatment license and a minimum of 3 years supervisory experience.

The lead operator operates the Districts wastewater plant; assists in ensuring plant compliance with all state and federal regulatory criteria and all safety policies and procedures. Reports directly to the WTTP Chief Operator. Provides instruction and leadership to subordinate operators and trainees as assigned.

This is a highly responsible, technical, and supervisory position requiring 24 hour availability. Exercise of initiative and independent judgment is required in providing guidance and supervision for continuous operation.

Must have a valid Florida driver's license, satisfactory background check and pass a pre-employment drug screening test.

The minimum starting salary for this position is \$55,000.00 to \$70,000.00. Willing to negotiate actual salary commensurate with experience in field.

The District has excellent company paid benefits including a 6% non- contributory investment money purchase plan, and a voluntary 457 plan with a match up to 6%. EOE.

Applications may be obtained by visiting our website at www.csidfl.org/resources/employment.html or fax resume to 954-753-6328, attention Jan Zilmer, Director of Human Resources.
