Anti-Fraud Policy

Policy Statement:

The Coral Springs Improvement District recognizes the importance of protecting the organization, its operations, its employees and assets against financial risks, operational breaches and unethical activities. Therefore it is incumbent upon the Coral Springs Improvement District Board of Directors and management to institute and clearly communicate the fraud prevention policy to both internal and external customers and vendors.

The District is committed to an environment where open and honest communication is the norm, not the exception. Fraud and corruption undermine the viability of our organization and compromise and breach the trust we proudly have among our customers and community.

The Coral Springs Improvement District recognizes a zero tolerance policy regarding fraud and corruption. All matters raised by any source will be taken seriously and properly investigated. Any investigation will be conducted without regard to the suspected wrongdoer's title/position, past performance, or length of service.

Scope:

This policy shall cover all Coral Springs Improvement District employees and appointed officials. Additionally, this policy covers all vendors, customer, contractors, consultants, outside agencies, and/or any other parties with a business relationship to the extent that the "District" is involved or impacted.

Fraud presents a significant risk to the District and its employees. Fraud can also endanger the District's existence and damage its local reputation.

The dishonesty of a few individuals may negatively impact the District and the principals and trust that exist within its organization. Appropriate disciplinary actions may be taken against any employee or external party involved if found of committing fraud. All efforts will be made to recover assets misappropriated or losses suffered due to fraud.

Fraud Definition and Examples:

- > Misrepresentation facts: any similar or related irregularity

Reporting Fraud:

Employees and other individuals associated with the Coral Springs Improvement District who become aware of, or have a reasonable basis for believing that fraud, defalcation, misappropriation or other fiscal irregularities has occurred shall promptly report the suspected activity to the District Manager. All incidents can be reported, orally or in writing, to the District Manager.

The employee should not confront the accused individual(s) or discuss the matter with anyone other than the person or office to whom the activity was reported.

Employees who make allegations they know to be false may be subject to disciplinary action up to and including dismissal. However, allegations that are investigated and deemed unsubstantiated are not necessarily indicative of false allegations.

Retaliation Prohibited:

An employee who, in good faith, reports wrongful activity meeting the provisions of this policy and/or Section 112.3187, Florida Statues (Whistle-blower's Act), is protected against retaliation for making such a report. The law provides for the individual's identity to remain confidential until the completion of the investigation and any results thereof. Regardless it is a violation of this policy for anyone to retaliate against any employee for reporting, in good faith, allegations of wrongdoing or participating in the investigation.

Investigation:

Upon reviewing allegations of fraudulent, unethical or dishonest acts, if it is determined that the investigation is warranted, the investigation shall be completed expeditiously. Recommendations for improvement to the system of internal control will be communicated as needed.

During the investigation, the investigator(s) will adhere to appropriate procedures and safeguard the administrative rights of the accused District employee(s). If allegations are corroborated and before a report is communicated, the accused will be afforded the opportunity to respond to the allegations of matters being investigated.

Corrective Action:

Final determination regarding action against an employee, vendor, recipient or other person found to have committed fraud or corruption will be made by the District Manager. Offenders at all levels of the District will be treated equally regardless of their position or years of service with the Coral Springs Improvement District. Determinations will be made based on a finding of facts in each case, actual or potential damage to the District, cooperation by the offender and legal requirements.

Depending upon the seriousness of the offense and the facts of each individual case, action against an employee can range from written reprimand and a probationary period to legal action – either civil or criminal. In all cases involving monetary losses the District will make every attempt to recover such losses.

Sexual Harassment Policy of Coral Springs Improvement District

Introduction:

It is the goal of the Coral Springs Improvement District to promote a workplace that is free of sexual harassment. Sexual harassment of employees occurring in the workplace or in other settings in which employees may find themselves in connection with their employment is unlawful and will not be tolerated. Further, any retaliation against an individual who has complained about sexual harassment or retaliation against individuals for cooperating with an investigation of sexual harassment complaint is similarly unlawful and will not be tolerated. To achieve the Districts goal of providing a workplace free from sexual harassment, the conduct that is described in this policy will not be tolerated and a procedure by which inappropriate conduct will be dealt with if encountered by employees.

Because the District takes allegations of sexual harassment seriously, prompt response to complaints of sexual harassment will be investigated. The District will act promptly to eliminate the conduct and Impose such corrective action as it is necessary, including disciplinary action where appropriate.

Definition of Sexual Harassment:

The legal definition for sexual harassment is described as sexual advances, requests for sexual favors, and verbal or physical conduct of a sexual nature when:

- Submission to or rejection of such advances, requests or conduct is made either explicitly or implicitly a term or condition of employment or as a basis for employment decisions; or,
- Such advances, requests or conduct have the purpose or effect of unreasonably interfering with an individual's work performance by creating an intimidating, hostile, humiliating or sexually offensive work environment.

Under these definitions, direct or implied requests by a supervisor for sexual favors in exchange for actual or promised job benefits such as favorable reviews, salary increases, promotions, increased benefits, or continued employment constitutes sexual harassment.

The legal definition of sexual harassment is broad and in addition to the above examples other sexually oriented conduct, whether it is intended or not, that is unwelcome and has the effect of creating a work place environment that is hostile, offensive, intimidating, or humiliating to male or female workers may also constitute sexual harassment.

While it is not possible to list all those additional circumstances that may constitute sexual harassment, the following are some examples of conduct which if unwelcome, may constitute sexual harassment depending upon the totality of the circumstances including the severity of the conduct and its pervasiveness:

- > Unwelcome sexual advances-whether they involve physical touching or not

District Cell Phone Policy

Purpose:

The District cell phone policy, June 3, 2014, sets forth Coral Springs Improvement District's (herein after referred as the District) policies about cell phone usage. It provides clarification for the issuance and use of cell phones and to establish the protocol for reimbursement by employees for personal use of the District.

Applicability:

This policy applies to all District employees. District employees include full-time or part-time employees. All employees are required to sign this agreement confirming their understanding and acceptance of this policy.

Cell Phone:

For the purpose of this policy, the term Cell Phone is defined as any handled electronic device with the ability to receive and/or transmit voice, text, or data messages without a cable connection (including, but not limited to, cellular phones, digital wireless phones, radio-phones/walkie-talkies, telephone pagers), Personal digital assistants with wireless communications capabilities (PDAs), or Research in Motion (RIM) wireless devices. The District reserves the right to modify or update these policies at any time.

Use of Cell Phones or Similar Devices:

1. General Use at Work – While at work, employees are expected to exercise the same discretion in using personal cell phones as they use with District phones. Excessive personal calls during the workday, regardless of the phone used, can interfere with employee productivity and be distracting to other employees. Employees should restrict personal calls during work time, and should use personal cell phones only during scheduled break or lunch periods in non-working areas. Other personal calls should be made during non-work time whenever possible, and employees should ensure that their friends and family members are instructed of this policy. The District is not liable for the loss of personal cell phones brought into the workplace. To

ensure the effectiveness of meeting, employees are asked to leave cell phones at their desk. On the unusual occasion of an emergency or anticipated emergency that requires immediate attention, the cell phone may be carried to the meeting on vibrate mode.

- 2. Unsafe work situation The District prohibits employee use of cell phone or similar devices while at any work site at which the operation of such device would be a distraction to the user and/or could create an unsafe work environment. Such work sites must be secured or the device used only by an employee who is out of harms way at such work environments.
- 3. Use While Driving An employee who uses a company-supplied device or a company-supplied vehicle is prohibited from using a cell phone, hands or hands off, or similar device while driving, whether the business conducted is personal or company-related. This prohibition includes receiving or placing calls, text messaging, surfing the internet, receiving or responding to email, checking for phone messages, or any other purpose related to your employment; the business; our customers; our vendors, volunteer activities, meetings, or civic responsibilities performed for or attended in the name of the District; or any other District or personally related activities not named here while driving. Use of District owned vehicles or devices are discouraged.

District Issued Cell Phones:

The District may issue phones to employees whose jobs require them to make calls while away from work or require them to be accessible for work-related matters.

Cell phones issued by the District are District property. Employees must comply with District requests to make their District-issued cell phones available for any reason, including upgrades, replacement, or inspection. Employees who leave the District for any reason must return their District issued cell phones.

Employee owned Cell Phones:

Some companies reimburse employees for both purchase of cell phones and monthly bills. Employees must obtain approval and confirmation that the cell phone and the service plan are needed for the job. An employee may pay to purchase a phone or service exceeding the approved limits. Employees are reimbursed only for authorized expenses; reimbursement is considered part of employees' wage and is taxable. Cell phone agreements for employee-owned cell phones do not require documentation or call records for income tax purposes. To document District expenses, however, the agreement requires keeping forms, agreements and bills for audit or review purposes.

Personal Cell Phones at Work:

The District allows the employees to bring their personal cell phones to work. We expect employees to keep personal conversation to a minimum. While occasional, brief personal calls are acceptable. Employee must turn off the ringers on their cell phones while away from their cell phones. Employees must turn of the ringers on their cell phones or leave elsewhere while in meetings, or training.

Security of District Issued Cell Phones:

Employees are responsible for the security of District-issued cell phones and the information stored on them. Always carry it with you; never leave the cell phone unattended. If lost or stolen you must immediately notify the District.

Prohibition of Camera Phones:

Employees may not use any cameras, video and audio recording devices, or video or recording features of cell phones, MP3 players or personal digital assistants with wireless communications capabilities (PDAs) or other digital devices that contain such capability at work that can cause violations of privacy and breaches of confidentiality.

Review on Monthly Charges:

A review of calling activity will be conducted on a monthly basis by the Director of Operations and the cellular device user. The user must document the business purpose of each call activity item that is NOT a call to the District number or a call to other District required or purchased cellular devices. The documentation for these calls must include who was called and for what business purpose. Any call that cannot be documented as to its business purpose will be treated as a personal (unauthorized) cell and must be reimbursed to the District.

Special Responsibilities of Managerial Staff:

It is important for management to provide a good example of mobile/cellular phone use and to guard against excessive or inappropriate use of personal/mobile/cellular phones by their officers.

Effect of Policy:

Violations of the foregoing rules will be considered a serious offence and may result in the imposition of discipline up to and including termination.

Reminder:

The use of cell phones and other wireless devices while driving leads to distractions that can result in traffic accidents. While the District cannot force you to adhere to these rules when you are not on duty, we strongly urge you to do so for your own safety and well-being and that of family, friends, and third parties on the roadways.

I have read and will abide by the conditions of the Coral Springs Improvement District Cell Phone Policy as defined herein.

Mr. Campbell,

I believe your complimentary remarks are intended for an employee of the Coral Springs Improvement District, not the City of Coral Springs Utility. I am copying their Operations Director so he can share your kind words with her.

From: Dascor Pompano Beach [mailto:dascorplumbing01@gmail.com] Sent: Wednesday, June 25, 2014 8:56 AM To: Rich Michaud Subject: Great employee at work, wanted to let you know

Rich,

Good morning. My name is Johnny Campbell I am the lead service technician at DASCOR plumbing in Pompano Beach. We work for customers all over your city and this morning I spoke to your employee Dot in the utilities dept. Usually when i speak with dispatchers they are unreceptive and do everything very slowly, waiting for approval from supervisors, taking messages that wont be returned until the end of the day... This was not the scenario with Dot. I have a customer at 1711 NW 127 way and this weekend they had a stoppage, i cleared tree roots out and suggested they call the city to have them camera the city tap. They did call but were unable to explain they needed a camera. Long story short, i called spoke with Dot and she sent a crew out immediately, offered to let me speak with her supervisor directly and was overall a pleasure to deal with. Just wanted to let you know that she made my experience with your city and the utilities dept a very good one and its nice to know there are still people that care about their jobs and doing them well.

Thank you for having her as an employee. Please forward her a copy as I know personally how good it feels to be commended for doing a great job.

Thank You, Johnny Campbell Service Manager Kohler Authorized Service Representative

Coral Springs Improvement District Water Department Report – 07/11/2014 07/21/2014 Meeting

- On July 3rd, the water department for the City of Tamarac called to ask if we could open the interconnect between us as they had two lime treatment plants down and needed the water from us while they did repairs. It was explained to them that we could not accommodate their request because of the state of disrepair of the system on both sides of the canal. We had previously spoken to the superintendent and were told that they had no money in their budget, or in the new budget to do the repairs, and that they get water from other sources. I want to use this opportunity to re-open negotiations with Tamarac to justify the importance of having a working interconnect and splitting the cost of upgrading the interconnect system, which we estimate to be \$155,000.00. We had just recently opened our interconnect with the City of Coral Springs on three different occasions at their request. Their usage from us was a total of 1,010,000 gals, which CSID billed to them.
- The first of our biannual Lead and Copper samplings were collected and tested at a certified laboratory. As per BCHD and EPA regulations we sent out letters to 90 chosen sample sites notifying them that we would be dropping off sample bottles and instructions on the water collection methods. We then picked up the samples and sent them to the lab for test results. The results were all well under the MCLs and therefore more than satisfactory, indicating that the product water from this new treatment process meets and exceeds the high standard of water that we were putting out with the old Lime Softening Process. Letters were sent out to those chosen sample sites informing them of their results with our appreciation for their participation.
- Well 11 re-hab is near completion, work had to be halted as the stainless steel well head
 was mis-drilled and had to be sent out to have the new holes drilled. Work is scheduled for
 Mon. the 14th to reverse air out the sediment in the well, install the pump and wellhead,
 and flow test and disinfect the well.
