Rick Olson	District Engineer
Curt Dwiggins	Field Department
Pedro Vasquez	Maintenance Department
Mark Nealon	Wastewater Department
Joe Stephens	Water Department
Shawn Frankenhauser	Stormwater Department

The following is a summary of the discussions and actions taken at the February 25, 2019 CSID Board of Supervisors Meeting.

FIRST ORDER OF BUSINESS

Roll Call

Mr. Cassel called the meeting to order and called the roll.

SECOND ORDER OF BUSINESS

**Approval of the Minutes of the
January 28, 2019 Meeting**

Each Board member received a copy of the January 28, 2019 meeting minutes, and Dr. Shank requested any additions, corrections or deletions.

There being none,

On MOTION by Mr. St. Cavish seconded by Mr. Holland with all in favor the minutes of the January 28, 2019 meeting were approved.

THIRD ORDER OF BUSINESS

Audience Comments

There being none, the next order of business followed.

FOURTH ORDER OF BUSINESS

Approval of Financial Statements for January 2019

The Board reviewed the Financial Statements for January 2019.

On MOTION by Mr. Holland seconded by Mr. St. Cavish with all in favor the Financial Statements for January 2019 were approved.

FIFTH ORDER OF BUSINESS

Consideration of Work Authorizations

A. Amendment #1 to Work Authorization #144 for Deep Injection Wells Mechanical Integrity Testing for a Decrease of \$16,337.32

On MOTION by Mr. St. Cavish seconded by Mr. Holland with all in favor Amendment #1 to Work Authorization #144 was approved.

B. Amendment #1 to Work Authorization #148 for Canal Bank Restoration at Three FEMA Sites for a Decrease of \$8,329.20

On MOTION by Mr. St. Cavish seconded by Mr. Holland with all in favor Amendment #1 to Work Authorization #148 was approved.

C. Amendment #1 to Work Authorization #156 for Production Well 8 Redevelopment

Amendment #1 to Work Authorization #156 is for a total increase of \$17,615.

On MOTION by Mr. St. Cavish seconded by Mr. Holland with all in favor Amendment #1 to Work Authorization #156 was approved.

D. Work Authorization #160 for Monitor Well #3 Pump Replacement

This work authorization is for a total cost of \$14,120.

On MOTION by Mr. Holland seconded by Mr. St. Cavish with all in favor Work Authorization #160 was approved.

SIXTH ORDER OF BUSINESS

Consideration of Purchase of John Deere Equipment for the Wastewater Department Piggybacking Off of the State of Florida Contract for \$8,099.29

Mr. Nealon reviewed the quote and indicated the old one will be repaired and used by the Maintenance Department.

On MOTION by Mr. Holland seconded by Mr. St. Cavish with all in favor the purchase of a John Deere utility vehicle at a total cost of \$8,099.29 was approved.

SEVENTH ORDER OF BUSINESS

Staff Reports

A. Manager – Ken Cassel

Mr. Cassel provided a brief update on litigation with the City. They are checking on the statute of limitations as their defense.

B. Engineer – Rick Olson

Mr. Olson reviewed his monthly status report, a copy of which is attached hereto and made a part of the public record.

C. Department Reports

- **Operations – Dan Daly**
 - **Utility Billing Work Orders**

This item is for informational purposes.

- **Utilities Update (David McIntosh)**

Mr. McIntosh reported on an agreement with SWCD regarding use of the District’s site for debris management. He also discussed repair of Tank C.

- **Water – Joe Stephens (Report Included)**

A copy of the report was included in the agenda package and is attached hereto as part of the public record.

- **Wastewater – Mark Nealon (Report Included)**

A copy of the report was included in the agenda package and is attached hereto as part of the public record.

- **Stormwater – Shawn Frankenhauser (Report Included)**

A copy of the report was included in the agenda package and is attached hereto as part of the public record.

- **Field – Curt Dwiggin (Report Included)**

A copy of the report was included in the agenda package and is attached hereto as part of the public record.

- **Maintenance Report – Pedro Vasquez (Report Included)**

A copy of the report was included in the agenda package and is attached hereto as part of the public record.

- **Human Resources – Jan Zilmer**

Mr. Zilmer reported two new employees were hired for the Water and Wastewater Departments. Staff is also meeting every Thursday to discuss succession.

- **Motion to Accept Department Reports**

On MOTION by Mr. Holland seconded by Mr. St. Cavish with all in favor the department reports were accepted.

D. Attorney

Mr. Lewis reported the following:

- He reviewed a proposed contract between the District and Johnson Controls.
- Ramblewood Elementary is pushing back on payment for a permit review they need. There is a provision in Chapter 1013, Florida Statutes, which exempts them from most permits unless they agree to pay for them.
- He discussed legislation being proposed by Commissioner Dan Daley, which will likely not pass. Commissioner Daley is willing to discuss with the District. Discussion ensued regarding a referendum for residents to vote on how There was consensus to meet with the City's lobbyist and the President of NSID.

EIGHTH ORDER OF BUSINESS

Supervisors' Requests

There being none, the next order of business followed.

NINTH ORDER OF BUSINESS

Adjournment

There being no further business,

On MOTION by Mr. Holland seconded by Mr. St. Cavish with all in favor the meeting adjourned.

Kenneth Cassel
Secretary

Martin Shank
President

Coral Springs Improvement District
10300 NW 11th Manor
Coral Springs, FL 33071
Attn: Joe Stevens

**Re: MARTIN COUNTY UTILITIES
CONTRACT #RFB-2017-2969**

Aquifer Maintenance & Performance Systems, Inc. (AMPS, Inc.) agrees to allow the Coral Springs Improvement District to piggyback our existing contract with Martin County Utilities (contract RFB#2017-2969) with the same terms, conditions, specifications & pricing. The scope of work includes but is not limited to:

*Line items 1 through 28, the complete contract as needed

*Monthly monitoring: Contractor shall monitor/test each well monthly & submit a report to the client representative

*Recommended monthly chemical injections on an as needed basis to maintain optimum performance & quality. Wells will be determined from the monitoring, the wells will set for 24 hours and then be flushed

*AMPS will guarantee that actual well performance will be maintained at no less than 80% of rehabilitated specific capacity on the Coral Springs Improvement District wellfield. 2 additional injections will be performed and, if no change, a rehabilitation will be performed at ½ price.

The above is agreeable to both Aquifer Maintenance & Performance Systems, Inc. & Coral Springs Improvement District.

By: 

Jim Murray, President
AMPS, Inc.

Re: WELL #5

AMPS, Inc. appreciates the opportunity to submit the following proposal for your review:

1) Mobilize equipment to site, demobilize & restore site upon completion	\$ 500.00
2) Pull existing pump, motor & equipment from well	950.00
3) Setup & perform dynamic downhole video survey on well	1,800.00
4) Reinstall pump, motor & equipment & mechanically hookup	950.00
5) Disinfect well per AWWA regulations	500.00
6) Neutralize & flush well; turn back over to CSID	170.00

TOTAL: \$ 4,870.00

If you have any questions about the above information please don't hesitate to call. Thank you.

Sincerely,

Jim Murray

Jim Murray
President

WORK AUTHORIZATION

CSID WA #137
Globaltech No. 151068

Pursuant to the provisions contained in the "Contract for Professional Engineering Consulting and Design-Build Services on a Continuing Contract Basis " between the CORAL SPRINGS IMPROVEMENT DISTRICT, hereinafter referred to as "OWNER", and Globaltech, Inc., hereinafter referred to as "FIRM", dated July 1, 2012 (hereinafter referred to as "AGREEMENT"), this Work Authorization authorizes the FIRM to provide services under the terms and conditions set forth herein and in the AGREEMENT, which is incorporated herein by reference as though set forth in full.

The OWNER desires design-build services related to the Improvements to High Service Pumps 1 & 2 hereinafter referred to as the "Specific Project".

Section 1 – Terms

The FIRM shall be defined as an individual, corporation or contractor having a direct contract with the OWNER or with any other subcontractor in the performance of a part of the work contracted for under the terms of this Work Authorization with the OWNER.

Section 2 – Scope of Work

The FIRM shall provide the following services in accordance with the AGREEMENT:

The OWNER currently has two ITT 8x6x12XL horizontal split case centrifugal high service pumps (HSPs) in operation acting as HSP 1 & HSP 2. Both pumps are installed in the west side of the HSP building. The pumps account for a large portion of the HSP system runtime and have seen a degradation in performance due to age and increasing demand from the distribution system. They can no longer provide sufficient pressure head to meet the required system pressure at their

design flow rate. The pumps shall be rebuilt in succession with each other as these pumps are an integral part of the water distribution system and their simultaneous removal would cause operational complications.

In addition, the butterfly valves associated with HSP 1 & 2 are no longer capable of isolating the HSPs from the distribution system. Each pump has two (2) 10" flanged butterfly valves on the intake and two (2) 8" flanged butterfly valves on the discharge lines. These valves will be replaced in-kind under this work authorization for a total of eight (8) new valves.

Hudson Pump & Equipment of Miami, FL, will be subcontracted by the FIRM to perform site pickup, transport and rebuilding of each pump, furnishing of new rotating assemblies, and realignment of the pump shafts. The FIRM shall also be self-performing additional services listed herein.

Task 1 – High Service Pump 1 & 2 Improvements

The following services will be performed:

High Service Pumps 1 & 2. Scope items below refer to each pump:

- The OWNER shall lock out and tag the appropriate equipment while the work is being performed. Motors shall remain in place and power shall be provided while pump rebuild is occurring in order to keep the motor heaters energized.
- The OWNER is to isolate and drain intake and discharge piping to the extent possible to allow for valve and pump replacement.
- The FIRM shall isolate and remove piping as required to remove the pump assembly (pump frame and electric motor shall remain). Unbolt and remove existing pump from frame. Uncouple pump from motor shaft and remove from base using a hoist. Visually examine the condition of the frame, fasteners, and shaft coupling. Temporarily remove 10x8" concentric reducer on pump intake.

- Provide and install one 10” blind flange on the intake manifold and one 8” blind flange on the discharge manifold with new flange bolts and gaskets.
- Crate and store the pump in the west portion of the HSP building and prepare for pickup by Hudson.
- Hudson shall perform pick up and transport the pump for disassembly, sandblasting, machine finishing of volute seal faces, balancing of new rotating assembly, impeller trimming, painting, and reassembly. Further inspection and evaluation of sleeves, and volute wear rings, packing, stuffing box, gland follower and bolts, bearings, coupling, and casing shall be performed by Hudson. Hudson shall prepare a brief report with findings and recommendations for repairs complete with estimate of cost and an estimate of repair time. A preliminary estimate of pump parts and labor costs are included in Attachment A “Budget Summary”. The Owner shall provide a decision whether to proceed with the repairs within one week of receiving the report and estimate.
- Upon delivery of the pump from Hudson, the FIRM shall remove the blind flanges from the intake and discharge manifolds, reinstall the pump on the concrete base, and reconnect the intake and discharge manifolds to the pump. Pump laser alignment and motor shaft coupling connection reinstall shall be performed by Hudson.
- The FIRM shall provide startup services and tuning as needed, with Hudson present on site, to integrate the HSP back into service.
- The above work scope is identical for each pump being rebuilt and shall be sequential so that at least one of the two pumps is available for service during pump rebuilding.

Before beginning work a schedule shall be prepared which includes engineering, procurement, and sequencing and construction phases of the work for OWNER information and approval.

Assumptions

Assumptions for the project are as follows:

- OWNER's staff to provide existing drawings and submittal data on existing equipment where available.
- Work on HSP 1 and HSP 2 shall be performed sequentially.
- OWNER to provide a decision on how to proceed with pump repairs within one week of receipt.
- Building permits are not required for work as this is considered maintenance on existing equipment.
- Electrical connections shall be disconnected and reconnected by the OWNER.
- A Porto let sanitary toilet for use by FIRM will be provided.
- Existing air release valves are in working condition and shall be reused.
- OWNER is to drain and isolate piping to the extent possible to allow for completion of work.
- A dumpster is not necessary to complete work.

Section 3 – Location

The services to be performed by the FIRM shall be on the following site or sites: **High Service Pump Building of the Water Treatment Plant**

Section 4 – Deliverables

The FIRM will provide the following Deliverables to OWNER:

- Submittals for pump modifications including pump curves.
- Proposed improvements to HSP 1 & 2.
- Operation manuals for valves and pumps.

Section 5 – Time of Performance

Project will commence after execution of this Work Authorization. The FIRM and OWNER agree to the following schedule:

Task	Time Elapsed to Subtask Completion
Notice to Proceed (NTP)	0 Days
Procure Replacement Valves	4 weeks after NTP
Isolate and remove HSP 1	4 weeks after NTP
Install isolation valves on HSP 1	11 weeks after NTP
Perform modifications to HSP 1	12 weeks after NTP
Reinstall and align HSP 1	14 weeks after NTP
Isolate and remove HSP 2	15 weeks after NTP
Install isolation valves on HSP 2	22 weeks after NTP
Perform modifications to HSP 2	23 weeks after NTP
Reinstall and align HSP 2	25 weeks after NTP
Site Restoration and demobilization	26 weeks after NTP

Section 6 – Method and Amount of Compensation

1. The FIRM shall be paid by the OWNER in accordance with the Florida Prompt Payment Act Florida Statute 218.70-79 and in accordance with the payment method as set forth in Section 6 of the AGREEMENT. The calculations shall begin using the date the invoice was received.
2. Total job price: **\$89,120.00**. Price includes an allowance of \$5,000.00.
3. On the terms contained in the FIRM's said proposal for the doing of said work and the said award therefore, and the specifications herein specifically referred to and made a part of this contract.
4. The cost for the above scope of services is a lump sum (LS). The LS is based on the materials, methods, and assumptions presented in the scope of services. The LS shall not be greater than the stated amount unless there is an approved increase in the scope of services.
5. A Budget Summary for the above LS is provided in Attachment A.

Section 7 – Application for Progress Payment

1. Unless otherwise prescribed by law, at the end of each month, the FIRM shall submit to the OWNER for review, an Application for Progress Payment filled out and signed by the FIRM covering the Work completed as of the

date of the Application and accompanied by such supporting documentation as is required by the AGREEMENT.

2. The Application for Progress Payment shall identify the amount of the FIRM Total Earnings to Date based upon value of original contract Work performed to date as approved by fully executed Change Orders.
3. Payment shall be based upon percentage of work completed based upon the approved schedule of values. Retainage in the amount of 10% will be withheld on the calculated value of any work, with the exception of stored materials which may be paid at the supplier's invoiced cost. At FIRM's request, after 50% completion of the work has been achieved, the OWNER will implement a reduction in retainage to 5% of all future pay requests. If retainage is reduced, FIRM may not withhold more than 5% retainage from subcontractors or suppliers and will be required to certify compliance with F.S. 218.70 *et seq* on each subsequent pay application. Notwithstanding the foregoing, in no instance can the amount retained be less than the value of OWNER's good faith claims plus the value of the work the OWNER determines remains to be put in place or required to be performed as remedial activities. For the purposes of this section, 50% completion shall be that point in time when OWNER determines that half of the Work required by the Contract has been completed. In no event shall the Work be determined to be 50% completed before the OWNER has paid 50% of the Contract amount and 50% of the Contract time has expired. The amount of previous Pay Estimate payments shall then be subtracted to equal the Balance Due during the Pay Estimate period.
4. When the OWNER determines the Work to be Substantially Complete, the OWNER may reduce the retainage to five percent (5%) of the dollar value of all Work satisfactorily completed to date, provided that the FIRM is making satisfactory progress toward Final Completion of the Work, that in the opinion of both the Engineer and the OWNER there is no specific cause for a greater retainage, and the FIRM obtains the written consent of the Surety Companies furnishing the required Public Construction Bond on consent

forms provided by the OWNER. The OWNER may reinstate the retainage up to ten percent (10%) if the OWNER determines, at its discretion or the Engineer's discretion, that the FIRM is not making satisfactory progress toward final completion of the Work or where there is other specific cause for such withholding.

5. Partial payment may be made for the delivered cost of stored materials planned for incorporation into the Work, provided such materials meet the requirements of this Contract, the Contract Drawings, and the Specifications, and are delivered and suitably stored at the project site, or at another location acceptable to the OWNER. Such material must be stored in a secure manor acceptable to the OWNER, and in accordance with the manufacturer's recommendations.
6. The delivered cost of such stored or stockpiled materials may be included in any subsequent application for payment provided the FIRM meets the following conditions:
 - a. An applicable purchase order or supplier's invoice is provided listing the materials in detail, the cost of each item, and identifies this specific contract by name.
 - b. The materials are fully insured against loss or damage (from whatever source) or disappearance prior to incorporation into the Work.
 - c. Stored materials approved for payment by the OWNER shall not be removed from the designated storage area except for incorporation into the Work.
 - d. Evidence that the FIRM has verified quantity and quality of the materials delivered (verified packing list).
7. It is further agreed between the parties that the transfer of title and the OWNER's payment for any stored or stockpiled materials pursuant to these General Conditions, and any applicable provisions of the Supplementary General Conditions, shall in no way relieve the FIRM of the responsibility of ensuring the correctness of those materials and for furnishing and placing such materials in accordance with the

requirements of this Contract, the Contract Drawings, the Technical Specifications, and any approved changes thereto.

8. The following monthly Application for Progress Payment shall be accompanied by Bills of Sale, copies of paid invoices, releases of lien, or other documentation warranting that the FIRM has received the stored materials and equipment free and clear of all liens, charges, security interests, and encumbrances (which are hereinafter in these General Conditions referred to as "Liens") and evidence that the stored materials and equipment are covered by appropriate property insurance and other arrangements to protect the OWNER's interest therein, all of which shall be satisfactory to the OWNER.
9. The FIRM shall warrant and guarantee that title to all Work, materials, and equipment covered by an Application for Progress Payment, whether incorporated in the Work or not, will pass to the OWNER no later than the time of Final Payment free and clear of all liens or other encumbrances.
10. The Engineer shall, within ten (10) days after receipt of each Application for Progress Payment, either indicate in writing a recommendation of payment and present the Application to the OWNER, or return the Application to the FIRM indicating in writing the Engineer's reasons for refusing to recommend payment. In the latter case, the FIRM may make the necessary corrections and resubmit the Application. Twenty (20) days after presentation of the application for progress payment to the OWNER with the Engineer's recommendation, the amount approved will (subject to the provisions of the following Paragraph) become due and when due will be paid by the OWNER to the FIRM.

In the event any dispute with respect to any payment or pay request cannot be resolved between the Contractor and Owner's project staff, Contractor may, in accordance with the alternative dispute resolution requirements of Florida Statute section 218.72, *et seq*, demand in writing a meeting with and review by the OWNER'S (agency) director. In the

absence of the agency director, a deputy director may conduct the meeting and review. Such meeting and review shall occur within ten (10) business days of receipt by OWNER of FIRM's written demand. The OWNER's manager, shall issue a written decision on the dispute within ten (10) business days of such meeting. This decision shall be deemed the OWNER's final decision for the purposes of the Local Government Prompt Payment Act.

11. The OWNER may refuse to make payment of the full amount recommended by the Engineer because claims have been made against the OWNER on account of the FIRM's performance of the Work, or because Liens have been filed in connection with the Work, or there are other items entitling the OWNER to a credit against the amount recommended, but the OWNER must give the FIRM written notice within twenty (20) business days after the date on which the invoice is stamped as received (with a copy to the Engineer) which specifies the invoice deficiency and any action necessary to make the invoice complete and proper.

Section 8 – Responsibilities

The FIRM shall, under no circumstance, look to the OWNER to provide any labor or equipment for the FIRM not specifically identified in this Work Authorization. The FIRM shall provide all of the labor and equipment necessary to perform the job or services contracted for at the expense of the FIRM. Property of any kind that may be on the premises, which are the site of the performance of this contract, during the performance of this Work Authorization, shall be at the sole risk of the FIRM.

- 8.1 The OWNER hereby designates Joe Stephens as the OWNER's representative.
- 8.2 In addition to applicable provisions of Section 2 of the AGREEMENT, the OWNER will:

- Provide copies of existing drawings and equipment cut sheets if requested by FIRM
- Pay for any required permit fees

The FIRM acknowledges and understands that it is an independent contractor in its relationship with the OWNER. The FIRM hereby designates Paul Gandy as the FIRM's representative.

Section 9 – Insurance

The FIRM shall provide certificate of insurance to the OWNER setting forth the type and amount of insurance carried by the FIRM and conforming to the minimum requirements set forth in the AGREEMENT.

Section 10 – Level of Service

The OWNER shall have the right to terminate said Agreement by giving the FIRM thirty (30) days written notice if the service that is being provided is not maintained at levels necessary to provide the required service. The OWNER will determine in its sole judgment what constitutes a satisfactory level of service.

Section 11 – Indemnification

The FIRM shall indemnify and hold harmless the Owner and its officers and employees as set forth in Section 11 of the Agreement.

IN WITNESS WHEREOF, this Work Authorization, consisting of twelve (12) pages and Attachment A has been caused fully executed on behalf of the FIRM by its duly authorized officer, and the OWNER has the same to be duly name and, in its behalf, effective as of the date herein above written.

6B.

WORK AUTHORIZATION 158

NO. GT-151131

Pursuant to the provisions contained in the "Contract for Professional Engineering Consulting and Design-Build Services on a Continuing Contract Basis " between the CORAL SPRINGS IMPROVEMENT DISTRICT, hereinafter referred to as "OWNER", and Globaltech, Inc., hereinafter referred to as "FIRM", dated July 1, 2012 (hereinafter referred to as "AGREEMENT"), this Work Authorization, executed this _____ day of _____ 2019, authorizes the FIRM to provide services under the terms and conditions set forth herein and, in the AGREEMENT, which is incorporated herein by reference as though set forth in full.

The OWNER desires design-build services related to FY 2019 GST Repair & Improvements, hereinafter referred to as the "Specific Project".

Section 1 - Terms

The FIRM shall be defined as an individual, corporation or contractor having a direct contract with the OWNER or with any other subcontractor in the performance of a part of the work contracted for under the terms of this Work Authorization with the OWNER.

Section 2 - Scope of Work

The OWNER maintains three ground storage tanks as part of the potable water distribution system. The tanks are located at the water treatment plant and are 0.75 million gallons (MG), 1.0 MG and 4.0 MG in capacity. Under a previous WA-146, improvements were performed to the 0.75 MG and 1 MG tank piping and concrete in accordance with the hydraulic study performed by the FIRM under WA-138 and as identified in the 2017 dive inspection performed by Underwater Solutions. This WA-158 implements improvements to the 4.0 MGT (million-gallon tank).

Task 1 - Project Coordination/Review

The FIRM will meet and coordinate with the OWNER via a site visit to collect all data and operation schedules for the 4 MGT.

Task 2 - Engineering and Project Management

FIRM shall perform the following:

1. Prepare shut down plan for the 4 MGT and logistics for subcontractor work.
2. Prepare subcontracts for tank repair.
3. Prepare necessary submittals to OWNER for crack repair epoxy and internal piping modifications.
4. Provide periodic inspections to confirm that field improvements are being performed in accordance with remediation plan.
5. Schedule and conduct meetings, inspections, and testing with OWNER's staff, as needed.
6. Provide notification to regulatory agencies as needed.

Task 3 - Construction of Improvements

The repair work will be subcontracted to Crom Coatings and Restorations, Inc. (Subcontractor). The OWNER desires to minimize tank shutdown time. In order to achieve this, the firm has reached out to Subcontractor to coordinate an option to apply a fast curing Aquatoxy A-6, an NSF-61 coating by Tnemec, on the existing ductile iron pipe and manway frame. Pressure washing of the tank walls is projected to take 3 days. Pressure washing and epoxy injection can be performed coincidentally, however, more crew personnel is required in order to expediate the repairs. Repair and improvements are anticipated to last a total of 9 days using this fast cure coating.

The following work is proposed for the construction of this project:

- The OWNER shall drain and isolate the 4.0 MG GST for the repair and modification activities to be performed by Subcontractor.
- Once the 4.0 MG tank has been prepared for improvements, Subcontractor shall proceed to perform the following work to the tank:
 - Stripe coat small cracks
 - Epoxy inject larger cracks
 - Clean and coat manhole frame
 - Clean and coat interior piping
 - Replace the existing aluminum manway cover with 316SS.
 - Pressure wash tank interior to remove lime scale and expose areas of potential spall

- Disinfect the tank
- Subcontractor shall also be installing safety handrails and harness tie-off points to all three tanks (0.75MG, 1MG, 4MG) under this work authorization.

Following the completion of work by FIRM, OWNER shall collect necessary bacteriological samples. Once cleared, the tank may be returned to service.

Assumptions

Assumptions for the project are as follows:

- OWNER's staff to provide existing drawings where available.
- All products used during the repair activities shall be NSF approved for use on potable water systems
- Work by Subcontractor was based on visual inspection. Quantities of repair may vary. If more significant repair work is needed, FIRM is to notify OWNER immediately. Any additional work is to be approved by OWNER.
- A continuous supply of potable water under minimum distribution system pressure shall be available for CROM crew within 100 ft of the site.
- Tanks shall be drained by OWNER prior to work start.
- A disposal container for generated waste during the improvements (if needed) shall be provided by FIRM.
- Temporary sanitary facilities for FIRM's and Subcontractor's employees will be provided by FIRM.
- Complete lock out and tag out of the subject tank prior to personnel entering the tank by OWNER. FIRM will verify isolation prior to beginning work.
- Building permits are not required for work as this is considered maintenance on existing equipment.
- Subcontractor shall cleanup within and around the tanks from the result of work performed. Overall cleaning of the exterior of the tanks is not included in this cope of Work.
- OWNER shall provide check for permitting fees (if required). Check shall be provided within one week of request by FIRM and be independent of Work Authorization budget.
- A \$5,000 construction allowance is included in this work authorization. The allowance will only be accessed under the OWNER's authority. Any unused

allowance will be returned to OWNER at the end of the project.

Section 3 - Location

The services to be performed by the FIRM shall be on the following site or sites:

Water Treatment Plant

Section 4 - Project Reference

The OWNER desired services to be performed by the FIRM shall be referred to as the FY2019 Ground Storage Tank Repair and Improvements project.

Section 5 - Deliverables

The FIRM will provide the following Deliverables to OWNER:

- Submittals for epoxy (used for crack repair) and any piping proposed to be used on the interior of the tanks.
- Proposed interior piping modifications with materials, dimensions and elevations.
- Completed improvements.

Section 6 - Time of Performance

Project will commence after execution of this Work Authorization and a Notice to Proceed is issued by OWNER. The FIRM and OWNER agree to the following schedule:

Task	Time Elapsed to Subtask Completion
Notice to Proceed (NTP)	0 Days
Procure Materials	30 Days following issuance NTP
Mobilization to Site	60 Days following NTP
Conduct Improvements to 4.0 MG GST	70 Days following NTP (Tank will be returned to service following completion of this task).
Installation of safety equipment on GSTs	84 Days following NTP
Site Cleanup and De-mobilization	90 Days following NTP
Submission of closeout documents	30 days after completion of field activities

Section 7 - Method and Amount of Compensation

1. The FIRM shall be paid by the OWNER in accordance with the Florida's Prompt Payment Act Florida Statute 218.70 -79 and in accordance with the payment method as set forth in Section 6 of the AGREEMENT. The calculations shall begin using the date the invoice was received.
2. Total job price: **\$85,949.00**. Price includes an allowance of \$5,000. Breakdown of cost is provided in table below and Attachment A.
3. On the terms contained in the FIRM's said proposal for the doing of said work and the said award therefore, and the specifications herein specifically referred to and made a part of this contract.
4. The cost for the above scope of services is a Guaranteed Maximum Price (GMP). The GMP is based on the materials, methods, and assumptions presented in the scope of services and may be adjusted downward based on final detail design and alternative selections or omissions. The GMP shall not be greater than the stated amount unless there is an approved increase in the scope of services. The final stipulated sum (adjusted GMP) submitted herein shall be an amount to be billed on the basis of "percent complete" and stored materials turned over to the OWNER.
5. Unless otherwise prescribed by law, at the end of each month, the FIRM shall submit to the OWNER for review, an Application for Progress Payment

filled out and signed by the FIRM covering the Work completed as of the date of the Application and accompanied by such supporting documentation as is required by the AGREEMENT.

6. The Application for Progress Payment shall identify the amount of the FIRM Total Earnings to Date based upon value of original contract Work performed to date as approved by fully executed Change Orders.
7. Payment shall be based upon percentage of work completed based upon the approved schedule of values. Retainage in the amount of 10% will be withheld on the calculated value of any work, with the exception of stored materials which may be paid at the supplier's invoiced cost. At FIRM's request, after 50% completion of the work has been achieved, the OWNER will implement a reduction in retainage to 5% of all future pay requests. If retainage is reduced, FIRM may not withhold more than 5% retainage from subcontractors or suppliers and will be required to certify compliance with F.S. 218.70 *et seq* on each subsequent pay application. Notwithstanding the foregoing, in no instance can the amount retained be less than the value of OWNER's good faith claims plus the value of the work the OWNER determines remains to be put in place or required to be performed as remedial activities. For the purposes of this section, 50% completion shall be that point in time when OWNER determines that half of the Work required by the Contract has been completed. In no event shall the Work be determined to be 50% completed before the OWNER has paid 50% of the Contract amount and 50% of the Contract time has expired. The amount of previous Pay Estimate payments shall then be subtracted to equal the Balance Due during the Pay Estimate period.
8. When the OWNER determines the Work to be Substantially Complete, the OWNER may reduce the retainage to five percent (5%) of the dollar value of all Work satisfactorily completed to date, provided that the FIRM is making satisfactory progress toward Final Completion of the Work, that in the opinion of both the Engineer and the OWNER there is no specific cause for a greater retainage, and the FIRM obtains the written consent of the Surety Companies furnishing the required Public Construction Bond on consent forms provided by

the OWNER. The OWNER may reinstate the retainage up to ten percent (10%) if the OWNER determines, at its discretion or the Engineer's discretion, that the FIRM is not making satisfactory progress toward final completion of the Work or where there is other specific cause for such withholding.

9. Partial payment may be made for the delivered cost of stored materials planned for incorporation into the Work, provided such materials meet the requirements of this Contract, the Contract Drawings, and the Specifications, and are delivered and suitably stored at the project site, or at another location acceptable to the OWNER. Such material must be stored in a secure manor acceptable to the OWNER, and in accordance with the manufacturer's recommendations.
10. The delivered cost of such stored or stockpiled materials may be included in any subsequent application for payment provided the FIRM meets the following conditions:
 - a. An applicable purchase order or supplier's invoice is provided listing the materials in detail, the cost of each item, and identifies this specific contract by name.
 - b. The materials are fully insured against loss or damage (from whatever source) or disappearance prior to incorporation into the Work.
 - c. Stored materials approved for payment by the OWNER shall not be removed from the designated storage area except for incorporation into the Work.
 - d. Evidence that the FIRM has verified quantity and quality of the materials delivered (verified packing list).
11. It is further agreed between the parties that the transfer of title and the OWNER's payment for any stored or stockpiled materials pursuant to these General Conditions, and any applicable provisions of the Supplementary General Conditions, shall in no way relieve the FIRM of the responsibility of

ensuring the correctness of those materials and for furnishing and placing such materials in accordance with the requirements of this Contract, the Contract Drawings, the Technical Specifications, and any approved changes thereto.

12. The following monthly Application for Progress Payment shall be accompanied by Bills of Sale, copies of paid invoices, releases of lien, or other documentation warranting that the FIRM has received the stored materials and equipment free and clear of all liens, charges, security interests, and encumbrances (which are hereinafter in these General Conditions referred to as "Liens") and evidence that the stored materials and equipment are covered by appropriate property insurance and other arrangements to protect the OWNER's interest therein, all of which shall be satisfactory to the OWNER.
13. The FIRM shall warrant and guarantee that title to all Work, materials, and equipment covered by an Application for Progress Payment, whether incorporated in the Work or not, will pass to the OWNER no later than the time of Final Payment free and clear of all liens or other encumbrances.
14. In the event any dispute with respect to any payment or pay request cannot be resolved between the FIRM and OWNER's project staff, FIRM may, in accordance with the alternative dispute resolution requirements of Florida Statute section 218.72, *et seq*, demand in writing a meeting with and review by the OWNER'S (agency) director. In the absence of the agency director, a deputy director may conduct the meeting and review. Such meeting and review shall occur within ten (10) business days of receipt by OWNER of FIRM's written demand. The OWNER's manager shall issue a written decision on the dispute within ten (10) business days of such meeting. This decision shall be deemed the OWNER's final decision for the purposes of the Local Government Prompt Payment Act.

Section 8 - Responsibilities

The FIRM shall, under no circumstance, look to the OWNER to provide any labor or equipment for the FIRM. The FIRM shall provide all of the labor and equipment necessary to perform the job or services contracted for at the expense of the FIRM. Property of any kind that may be on the premises, which are the site of the performance of this contract, during the performance of this Work Authorization, shall be at the sole risk of the FIRM.

8.1 The OWNER hereby designates Joe Stephens as the OWNER's representative.

8.2 In addition to applicable provisions of Section 2 of the AGREEMENT, the OWNER will:

- Provide copies of existing drawings and equipment cut sheets if requested by FIRM
- Pay for any required permit fees

The FIRM acknowledges and understands that it is an independent contractor in its relationship with the OWNER. The FIRM hereby designates Conner King as the FIRM's representative.

Section 9 - Insurance

The FIRM shall provide certificate of insurance to the OWNER setting forth the type and amount of insurance carried by the FIRM and conforming to the minimum requirements set forth in the AGREEMENT.

Section 10 - Level of Service

The OWNER shall have the right to terminate said Agreement by giving the FIRM thirty (30) days written notice if the service that is being provided is not maintained at levels necessary to provide the required service. The OWNER will determine in its sole judgment what constitutes a satisfactory level of service.

Section 11 - Indemnification

The Firm shall indemnify and hold harmless the Owner and its officers and employees as set forth in Section 11 of the Agreement.

IN WITNESS WHEREOF, this Work Authorization, consisting of ten (10) pages and Attachment A has been caused fully executed on behalf of the FIRM by its duly authorized officer, and the OWNER has the same to be duly name and, in its behalf, effective as of the date herein above written.

AMENDMENT 1 TO
WORK AUTHORIZATION 147

Globaltech No. 151102

Pursuant to the provisions contained in the "Contract for Professional Engineering Consulting and Design-Build Services on a Continuing Contract Basis " between the CORAL SPRINGS IMPROVEMENT DISTRICT, hereinafter referred to as "OWNER", and Globaltech, Inc., hereinafter referred to as "FIRM", dated July 1, 2012 (hereinafter referred to as "AGREEMENT"), this Work Authorization authorizes the FIRM to provide services under the terms and conditions set forth herein and in the AGREEMENT, which is incorporated herein by reference as though set forth in full.

The OWNER desires design-build services related to the Membrane Plant Antiscalant Flow Meter, hereinafter referred to as the "Specific Project".

Section 1 – Terms

NO CHANGE.

Section 2 – Scope of Work

Amendment 1 is reimbursing funds for unspent allowance of \$5,000.00.

Section 3 – Location

NO CHANGE.

Section 4 – Deliverables

NO CHANGE.

Section 5 – Time of Performance

NO CHANGE.

Section 6 – Method and Amount of Compensation

This Amendment No. 1 to Work Authorization 147 decreases the \$38,436.00 contract value by \$-5,000.00, to a new final contract amount of \$33,436.00.

Section 7 – Application for Progress Payment

NO CHANGE.

Section 8 – Responsibilities

Globaltech, Inc.
CSID Engineer's Report
March 18, 2019

PROJECTS UNDER CONTRACT

WA #131- HSP 7 Modifications – In Progress

- Approved by Board – 1/22/18
- Problem with pump – reordered.
- Pump delivery scheduled for end of March – April, 2019.

WA #133 - Facility Arc-Flash Study – In Progress

- Revised Draft Report submitted 10/30 – under review.
- Conditional Assessment submitted 11/16 – under review.
- Vulnerability Assessment delivered 11/28.
- Review performed by CSID Staff and Globaltech
- Resolving review comments – Final Report end of March 2019

WA #139 – Generator Diesel Fuel Line Replacement – In Progress

- Approved by Board – 4/26/18
- Contacted Broward County regarding need for permit
- Cypress Construction completed design
- Permit application submitted week of 2/09/19.
- Scheduling work to occur after the completion of WA-149 (April 2019)

WA #140 – Dual Zone Monitor Well Construction – In Progress

- Approved by Board – 6/18/18
- YBI mobilized off site and turned the well over to Globaltech in early-December
- Wellhead, pumps and instrumentation should be completed end of March 2019.
- YBI will return to abandon the monitoring tubes in April 2019.

WA #141 – Plant D Repair – In Progress

- Approved by Board – 4/26/18
- Demolition completed 8/15/18
- Mechanical equipment (rake arm, center column, center cage, and drive) delivered & installed.
- Installed supplemental bracing on clarifier flange
- Drilled and installed epoxy anchors
- Floor design complete
- ProShell beginning work 3/11/19.
- Startup scheduled for end of April.

PROJECTES UNDER CONTRACT (Cont.)

WA #143 – Site 12 Canal Bank Restoration – Closeout

- Approved by Board 6/18/18
- Restoration work completed 11/02/18
- One of two fences installed
- Projected can not officially close until fencing contractors are paid by Globaltech.

WA #149 – High Service Pump Building Isolation Valve Replacements – In Progress

- Approved by Board 10/16/18
- Exploratory excavation completed
- Valves shipping 3/26/19.
- Installation scheduled upon arrival (after 4/02/19)

WA#151 – ORP Analyzer – On 11/26/18 Board – In Progress

- Approved by Board 11/26/18
- Design and equipment placement completed
- Equipment arrived.
- Installation scheduled late-March

WA#152 – Deep Injection Well Operating Permits – Closeout

- Approved by Board 11/26/18
- Application was submitted January 25, 2019
- Received and responded to RAI from FDEP on 2/27/19.

WA#153 – Structural Assessment of Pump Stations 1 & 2 – In Progress

- Approved by Board 12/17/18
- Conducted site visits on 2/14/19
- Draft Report expected to Globaltech on 3/15/19

WA#156 – Production Well 8 Redevelopment – In Progress

- Approved by Board 12/17/18
- Re-development began January 16, 2019
- Amendment to repair casing approved at February's Board.
- Wellhead repairs scheduled for week of 3/18/19

WA#160 – Monitor Well 3 Pump Replacement – In Progress

- Approved by Board 2/25/19
- Pump ordered – delivery expected end of March

March Report to the Board of Supervisors for the Water Plant

Report Includes Updates through 3/6/2019

Piggyback off of AMPS contract with Martin County

We are currently piggybacking off of this contract for routine monthly maintenance of our wells via chemical injections and monitoring. We would now like to be able to use any of the services listed in this contract as it will save us thousands off of work we may need to have done. For example we were given a verbal proposal from Globaltech to perform camera work at well 5 where we are seeing excessive sand and silt coming from this well and they proposed 15-20k. We are able to have this same work done through this piggyback for \$4,870.

WA 137 HSP1&2 retrofit and valve replacement

Due to the change in flows and pressures required throughout our system over the years our oldest high service pumps (1&2) need to be retrofitted to keep up with the larger pumps. At times these pumps dead head and are found running with the check valves closed and the piping heating up. This is because they are undersized. We were able to identify a cost effective resolution which was to have both pumps sent back to the manufacturer to have larger impellers installed in them as well as have the volute cleaned and returned to new condition. This is much more cost effective than replacing the pumps, motors, and bases as a package. We are also planning on replacing the 30yr old isolation valves on either side of these pumps with this WA as they are no longer holding.

WA 158 4 million gallon tank repairs

Based on the findings and recommendations in our required 5 year tank inspection report, which was conducted by Underwater Solutions in January 2018, we budgeted to address this tanks issues this Fiscal Year. We addressed similar issues on the other two ground storage tanks last fiscal year. This WA will address all structural concerns as well as replace the manway hatch door which is in poor condition and remove corrosion from interior piping and coat them to prevent future corrosion.

Well 8 rehabilitation

The amendment to this work authorization was approved at the February meeting. Globaltech will have one of their crews install a concrete collar around the piping above the slab to seal it off and reestablish the required sanitary seal. Once this is complete the acidification portion of the rehab process will take place and the well should be returned to us within a couple of weeks after that.

Underground valve replacement WA 149

The replacement valves for this project have been ordered and are due in by the second week of March. Globaltech expects to have these valves replaced and the holes backfilled by the first week of April. Staff will then re-sod the area to ensure it is presentable prior to the open house. We have also been working with James Barton at Florida Technical Consultants on adding this area to our GIS system which is almost finalized.

Well 11 failure

We were able to identify the culprit for the failure and narrowed it down to a manufacturing defect in the pump. Atlantic Environmental stood behind the pumps and motors they have been supplying us and replaced all of the equipment at no cost to us. We installed a new pump and motor in this well and placed it back in service on 3/6/19.

Projects with Globaltech

- High service pump #7 flushing line- WA 131 letter of understanding for the shift in direction approved in March. Underway
- High service pump #7 auto start at low pressure- WA 159 to be presented in April
- Replacement of high service pumps 1&2's impellers- WA to be presented this month
- Underground diesel tank transfer lines upgrade- WA 139 approved in April. Underway
- Underground valve replacement on North side of high service pump building- WA 149 approved at the October meeting. Underway
- Membrane replacement assistance- WA 150 approved at the October meeting. Completed
- ORP probe installation- WA 152 approved in November. Underway
- 4 million gallon storage tank repairs- WA 158 to be presented this month
- Antiscalant flowmeter installation- WA 147 approved in September. Completed
- Well 8 rehabilitation- WA 156 approved in December. Amendment approved in February. Underway
- Relocation of post treatment injection points- Avoided

Water Loss

The graph below compares the water loss % in 2018 vs 2019. The loss % for February 2019 was 8.84% less than it was in February 2018. So far this year we are below the 10% loss we need to be at (9.60%). If we continue on this track we will be in great shape this year.

Wastewater Plant Operations

Monthly Influent average Flow for March 4.76 is MGD.

Monthly Concentrate average flow was 0.67 MGD.

Submitted March's Monthly Deep well report.

Ongoing Projects

Globaltech has notified the District that they are progressing with the following approved work: **WA # 133– Arc Flash Study**

- CSID staff is Awaiting final report from Globaltech and Smith Engineering
- **WA # 140 Monitoring Well #4 Construction**
- Monitoring well constructing was completed on 12/21. Project is on hold since 12/21 awaiting delivery of piping/instrumentation by Globaltech. Once monitoring well 4 is completed, monitoring well #1 will be plugged and abandoned.

WA # 141 – Plant D Repairs

The new rake arm and center column equipment for Plant D has been delivered. The cement that was scheduled to be poured in January now rescheduled to March.

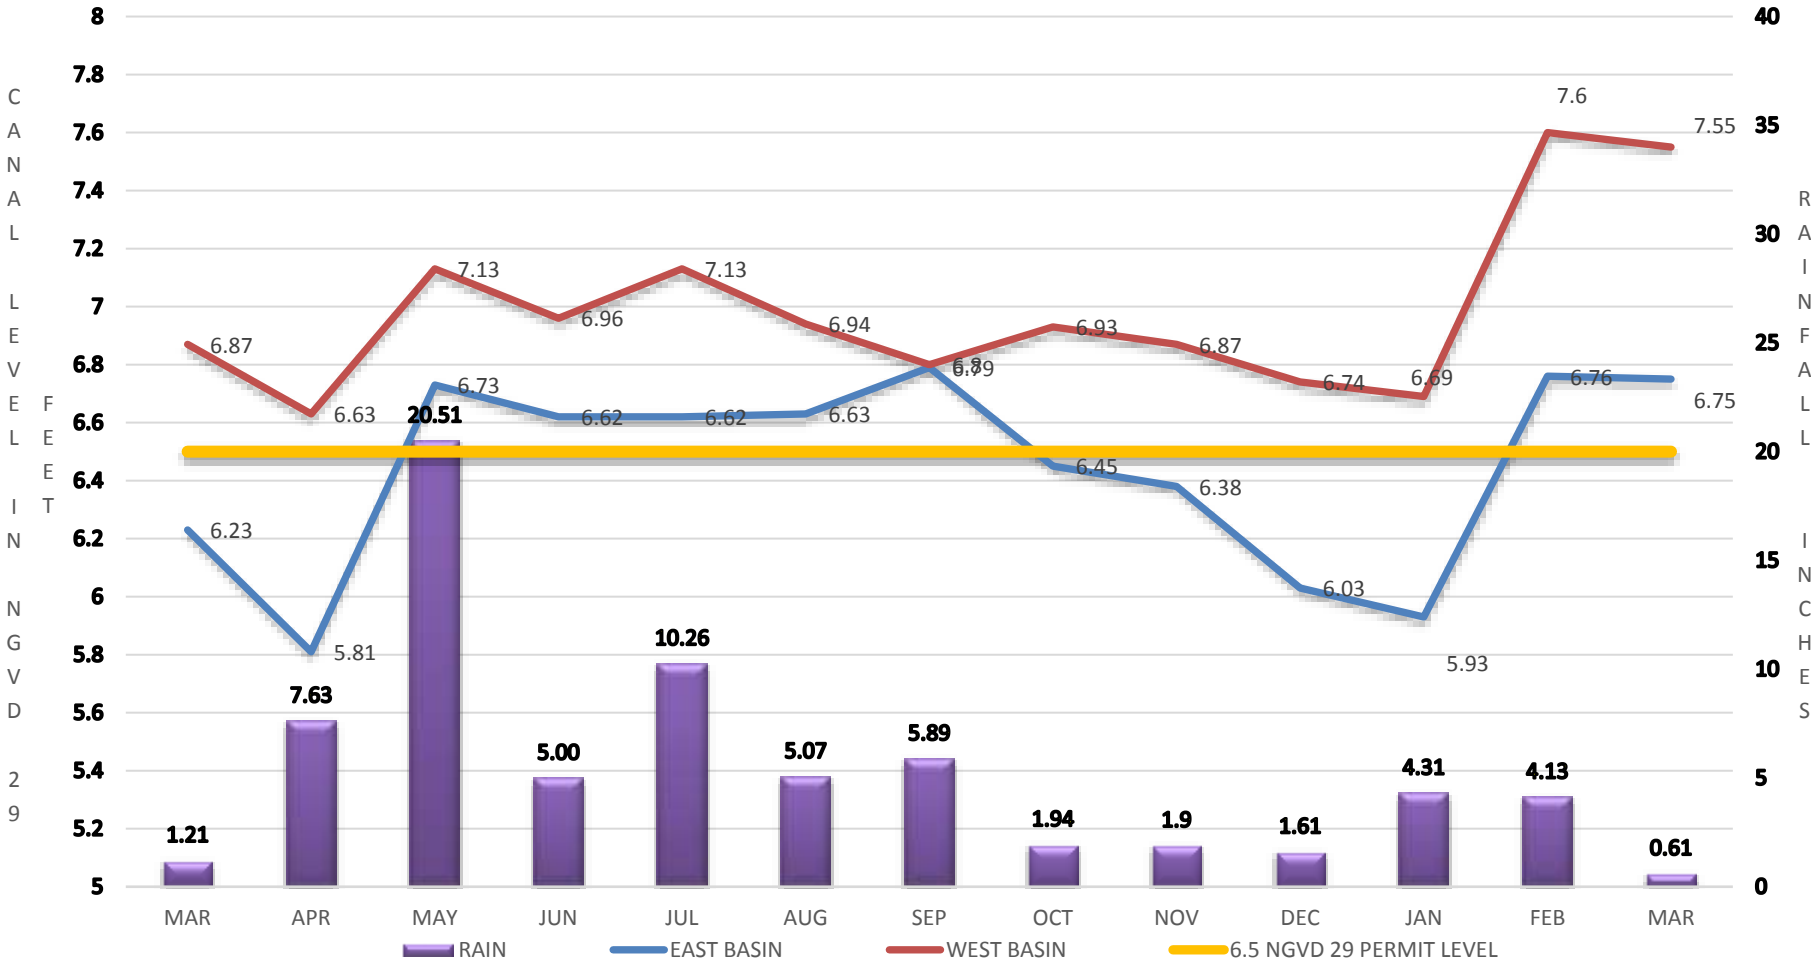

Coral Springs Improvement District

Drainage Report March 18, 2019

Board of Supervisors Meeting

- Current canal levels averages are 6.75 NGVD 29 in the east basin and 7.55 NGVD 29 in the west basin as of this report. Rainfall recorded for March as of this report is .61 inches.
Rainfall recorded for February was 4.13 inches
Rainfall recorded to date for the year is 8.44 inches
- Field spray activities are on-going as scheduled, no out of the ordinary issues to report. Lake Coral Springs was last treated in mid-January, submerged growth is slow, no treatment required.
Crews are removing saplings and small trees from the edge of canal banks and right of ways when adverse weather prevents spray applications.
- Annual photography of all canal right of way is schedule to be completed by end of April.

AVG. BASIN LEVEL AND TOTAL RAINFALL

Iguana Management: March 2018 through February 2019

Iguana's controlled

Water Distribution and Wastewater Collection

Department Report

3-18-19 board Meeting

Prepared by: Curtis Dwiggin

- There were only ...4 reported service breaks in the month of February. A new record Low!!
- Globaltech is complete with lift station 13 and 17 project, the field staff is satisfied with the work that was done. I will be asking to close out that project
- Trio Development Corporation will soon begin Lift station 2 and 5 rehab. Starting with lift station 2
- LMK Pipe renewal is nearing the end of lift station basin 2 Project. I estimate completion by the end of April.
- Field personnel will be conducting dye testing at terminal end Catch basins in locations where our Fluoride and Phosphorous tests showed elevated levels. We may have the results of that test by the time of this meeting
- The Department is gearing up for our next round of our annual valve exercising program. We will be adding concrete collars to all field valves, starting with major isolation, then to internal community valves. This project will be done over time. I estimate it taking about 3 years to complete.

Maintenance Department Report (Pedro V.)

Water Department:

- Thermographic test in the WP MCC's, preventive and corrective maintenance in equipment.
- Modifications to the control system of A/C units #17 and #18 MCC room to avoid continuous equipment failures.
- Works in the field to the open house.
- Small civil constructions and repairs.
- Oscilloscope test in the 250 HP #3 motor to make sure that the improvement performed was successful, the test was satisfactory. The important of this modification was that the bearings and the motor will have more live time significantly.
- The # 1 motor 250 HP of the process room was sent to an external workshop for guarantee to be intervened mechanically due to a factory defect.
- Main compressor in the process room was repaired.
- The MCC's began to be labeled for OSHA standards compliance.

Wastewater Department:

- Corrective and preventive maintenance in all plant.
- The pump #2 in the belt press pit was fixed for warranty and installed.
- We are working to coordinate with Global Tech to remove the monitoring well # 3.
- The MCC's began to be labeled for OSHA standards compliance.
- Works in the field for the open house, painting, etc.

Field Department:

- N/A

Drainage Department:
