

7/10/2015

Culvert Inspection FY 2015
Project GF-2015-04

Board of Supervisors,

On June 18 and June 25, 2015 the Coral Springs Improvement District published an invitation to bid in the Sun Sentinel as required. The bid spec included underwater diving services to inspect the condition of **51** culvert pipes and similar structures including each bay at both pumping stations and discharge pipes and document any debris/sediment amounts within culvert pipes and provide detailed reports on any damage or defects observed of culvert pipe and similar structures and pump station infrastructure. We had 4 companies that responded and attended the pre-bid meeting as mandated in the bid spec. There were **2** bids submitted.

We have attached a bid tabulation sheet for your review. Based on prior years pricing for this project, the submitted costs from both bidding companies are much higher than expected. A recommendation is made to reject both bids and re-bid this project in order to obtain a better cost.

Sincerely,

Shawn Frankenhauser
C.S.I.D. Drainage
